Your letter & Catalogue at hand this P.M. and please accept my thanks for same. I am making an effort to get a fine collection of Colonial Coins and shall proceed very slowly in same. I note for Copies as I know the originals are not to be had or if had, at a fabulous price. and in such cases a good Copy I deem the next best thing in which to represent the coinage.

The pieces described in your letter are undoubtedly fine & rare but I think the prices are pretty high, at any rate higher than I would care to pay now so will not

Upon examination of the coins sent for my inspection I have concluded to retain the "Continental Currency" and herewith enclose draft on NY to pay for same $18. The sixpence I return as I think the price too high. The variety as Crosby (as being NY Obv. 1a Rev D) is the best rare of any of the varieties. I know the condition is very fine but I bought shillings & threepence in as good condition and rarer varieties of their kind than yours for less money than you ask by considerable. I could not pay more than $700 for the sixpence. If upon further consideration you think it advisable, in order to promote a still larger business between us, to send the sixpence at above figure you can do so. I shall be glad to hear from you when you have anything fine in the colonial line & to receive Catalogues when you have any of sale. Please acknowledge receipt of this.

Your two postal cards at hand and contents noted. In reply would say I would like to see the "Rhode Island" piece. I think your price rather high. I've heard through a good many sales and find it will fill me, and two dollars is the highest price I would pay for it. You may be more fortunate perhaps. I warrant it genuine original piece.

The mark "newly shilling silver" suits me for the present. Perhaps some time in Jan I may write you in regard to it. I have never seen it. I have read only a description, and in the last part of his note he concludes that some of the silver pieces previously described are copper silver plated.

Will report on the Rhode Island piece soon as I can do the best for you in regard to this college.

Gent.

I have examined the Coins rec^d from you and find I have the same Var of Mars Shilling and a better impression so do not care for this. The New York cent I will keep at your price ($14.00) and I will take the Nova Constellatio at .75 that will give you 25% commission on this piece or I will return it, as you wish and take my chance of buying one at auction for less. I will hold all until I hear from you in order to save a little expense. The Shilling I have (the poor one) put in at 3.75.

Yours Resp^ly
